COVIDSafe APP

To aid the fight against COVID-19, Football Queensland supports the COVIDSafe app and encourages the football community to get behind this initiative.

It represents our best chance to get back to football quickly.

Download from the Apple App store and Google Play.

OVERVIEW

Football Queensland's priority is to safeguard the health and wellbeing of the football community and wider public during the COVID-19 pandemic.

Stage 1 of the Queensland Government's Return to Play Guide outlines that no indoor or outdoor formal organised individual or team community sport or training will be permitted, with all football and futsal activity across the state suspended until June 1.

STAGE THREE SUMMARY

FROM 3 JULY

This document outlines the conditions that must be met for training sessions to limit the spread of COVID-19 in line with Federal and State Government guidance.

Failure to meet these conditions may void your insurance policies under the national insurance program, may be dealt with under FQ's Grievance, Disciplinary and Tribunal Bylaw, and critically, may delay the return to competition.

Contact

Full contact is permitted on the 'field of play' in line with pre-COVID contact activities. At all other times, participants, coaches, supervisors, officials, trainers, and spectators are to observe physical distancing requirements and undertake sound hygiene practices as detailed in this Plan.

Facility Capacity

The total number of people to attend an activity, training and competition at indoor venues is to be based on occupant density of one person per two square metres for venues of 200 square metres or less (up to a total of 50 people) and one person per four square metres for venues of 200 square metres or more. For outdoor venues, physical distancing off the field of play is required. For outdoor venues, physical distancing off the field of play is required. Risks will be managed through mandatory record keeping, through group segmentation and buffer zones as appropriate. Individual organisations and facility managers will be responsible for implementing these requirements in line with the relevant approved Industry COVID Safe Plan.

Facility Usage

All elements of community sport, recreation and fitness facilities are accessible in line with relevant health guidelines and directives. This means facilities such as canteens, change rooms, bathrooms, storage rooms, bars will reopen and operating hours can also be amended. Industry Plans will detail how organisations will manage the use of ancillary facilities in relation to cleaning/sanitisation and flow of people within venues. All facility components will be operated in accordance with the relevant approved Industry COVID Safe Plan.

Events

Such as championships, markets, carnivals and gala days can recommence. Organisations must ensure the relevant approvals are in place based on the number of people attending as seen in the Roadmap.

Stadia

Strict social distancing measures and hygiene practices will remain central to COVID Safe Plans for stadia, in line with Public Health Directives. Crowd capacity will be up to 25,000 spectators or 50% of capacity (whichever is the lesser). Group segmentation and buffering measures will be used to reduce co-mingling. Public messaging will ensure that patrons are aware of all requirements during sporting events and concerts. COVID Safe Plans for stadia will address transport management for patrons travelling to and from venues, including alternatives to public transport.

Compliance

All activity is to be conducted in accordance with relevant Industry and Stadia COVID Safe Plans and Public Health Directives. This includes organisations detailing how all persons at the activity/facility will be tracked, and traced, including spectators.
