Dear Friends and Family

For those of you who are unaware, our good mate Jarrod Austin (aka Jed) was recently diagnosed with stage 4 Oesophageal cancer, which has spread. Jarrod is 52 years of age. Jarrod has had to return home to Australia from Malaysia where he has been working for the last few years to commence a variety of necessary treatments that include radiation, chemotherapy and immunotherapy.

Immunotherapy is a form of cancer treatment that uses the power of the body's immune system to prevent, control and eliminate cancer.

Unfortunately, immunotherapy for Oesophageal cancer is not financially covered by the government. The cost is seven thousand per treatment and is needed every four weeks.

This fundraiser event will be utilised to raise funds to enable Jarrod to undergo treatment, pay for the associated medical expenses and to support his living expenses (due to loss of income).

Anyone who knows Jarrod, be that through his school years, his sporting years or more recently from the time he spent in Malaysia would be well aware of his kind and generous nature, as well as his infectious sense of humour always coupled with a cheeky smile. He is the first to jump in and help anyone he can, no matter how big or small the reason.

Due to current COVID restrictions in QLD, we have a limited capacity. If you are unable to make the event, we encourage you to please donate to the Go Fund Me Page. Thank you.
