

MEMO 54 - 24

To: Queensland Clubs
From: Football Queensland
Subject: 2025 Registration Process Update
Date: November 29, 2024

Dear Clubs

As confirmed in [Football Queensland Memo 47-24](#) issued earlier this month, Football Australia's new national registration platform called **PlayFootball v2.0** (previously known as LetsPlayFootball) will be made active on Monday, 2 December.

Football Queensland recently received access to PlayFootball v2.0 from Football Australia and is currently in the process of setting up clubs within the platform to get it to a state of readiness before providing administrator access to clubs across the state.

Football Queensland will provide further information to clubs next week on the process for accessing the club administration section of the new platform once this setup phase is complete.

Clubs are also advised that registered participants will receive communication from Football Australia on Monday outlining the steps to claim their PlayFootball v2.0 account. No further action will be required from clubs as part of this process.

In the meantime, clubs are reminded that the 2025 registration process requires players, coaches and referees to follow the same initial process via Squadi where you can purchase your relevant club product or participant package, before completing Football Australia's simple, mandated registration process within the new PlayFootball v2.0 system, which also requires the payment of Football Australia's National Registration Fee where applicable.

Further information on the participant registration process for 2025 is available in FQ Memo 47-24.

For further enquiries, please contact Football Queensland via registrations@footballqueensland.com.au

End.
