# PERFORMANCE FABRICS

**100 years of experience.**

A leader in technical sport fabrics with qualities such as UV Protection, Anti-Microbial, Stain Release and Moisture Wicking. These are manufactured at mills that have been accredited by leading textile organisations. Our ability to provide technical fabrics that solve specific issues has made us the preferred supplier to major sport teams around the country.

**We are proud to present the comprehensive KAPPA TEAM fabric range.**

# FABRIC PROTECTION & FITTING STYLES

SKIN FIT | SLIM FIT | REGULAR FIT

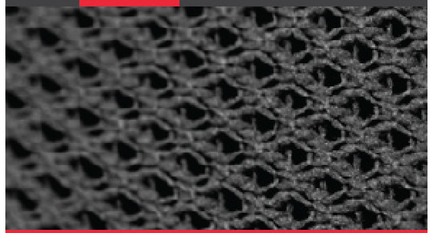

## CLIMA PROTECTION

Kappa's Clima Protection has been designed using hi-tech fabrics to help keep the body at a constant temperature during climate and thermal changes.

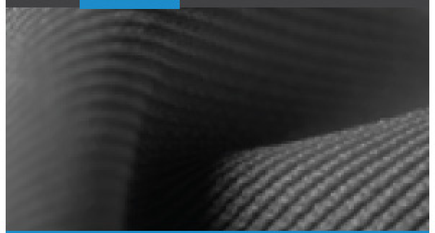

## BACTERIAL PROTECTION

Our Bacterial Protection fabric has been engineered and treated especially to create a protective barrier against bacterial growth and to prevent odour.

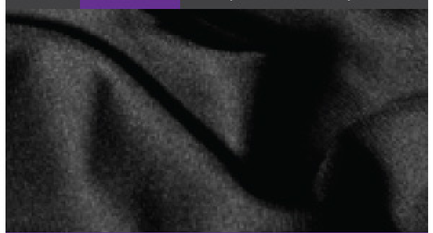

## HYDRO-WAY PROTECTION

Hydro-way performance fabric includes our high performance fabric **Quick Dry**, which has been engineered to draw heat away from the skin and keep the body cool and dry.

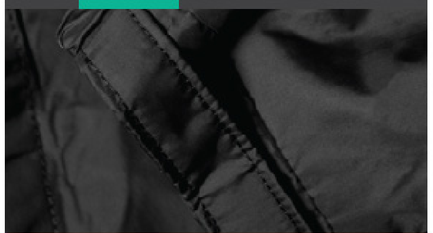

## UVA PROTECTION

Items with UVA Protection offer a high level of protection against the harmful effects of UVA rays. Our hi-tech fabrics together with careful details ensure the best performance and protection, always.

## WIND PROTECTION

This structure is a combination of Kappa's hi-tech fabrics to give you a full windproof performance, ensuring a perfect transpiring action.

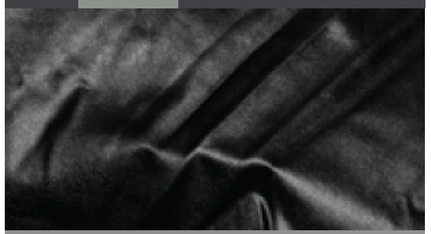

## WATER PROTECTION

Water Protection fabric is made with a combination of highly water-resistant and water-repellent fabrics which guarantee an excellent performance even during difficult climatic conditions.

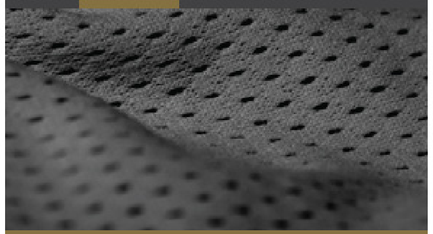

## WATERPROOF PROTECTION

Item's with Water Protection have been constructed to be a shield against water. The fabrics are totally water proof with heat sealed seams to ensure an absolute impermeability.

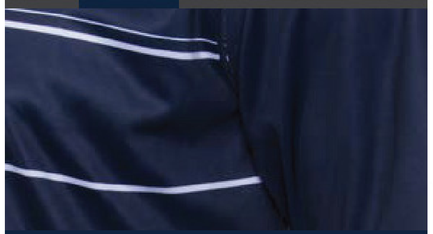

## BREATHABILITY PROTECTION

Our Breathability Protection fabric has been engineered to grant maximum breath-ability, as it allows air to pass through so perspiration can easily evaporate.

## ANTI-MICROBIAL FABRIC*

**CleanCool** Anti-Microbial fabric eliminates highly tolerant MRSA in a short time which maintains freshness in garments by eliminating bacteria the causes odour. *Available on custom orders only

# CLUB TESTIMONIALS

"Kappa has been Western United's Technical Partner since the Club's inception and the brand continues to boost the players on the pitch with stylish and high-quality apparel.

Since the beginning of the partnership in 2019, Kappa has gone on to strengthen its commitment to Western United by providing apparel for the Club's entire Academy set up and for the Liberty A-League Women program, supporting the inaugural team as it leads the league.

We are delighted that Western United will remain kitted out on and off the pitch by world-leading global manufacturer Kappa, as the Club's official apparel provider for at least the next three seasons."

**General Manager, Commercial, Chris Speldewinde**

# MEMBER FEDERATION TESTIMONIALS

"In my capacity as CEO I have had the pleasure of working with Kappa over a number of years in both the professional team space in the A-League competitions for both men and women and also at the Member Federation / Community Football Club level.

Here at Football NSW we have utilised Kappa's custom design process to elevate our brand and have focused on creating unique jerseys for the NSW State and NAIDOC representative teams as well as supplying the highest quality stock garments for our coaches and staff.

At Football NSW we have found that Kappa's cooperative approach with our management team ensures timely and accurate deliveries for all our representative team programs.

As I have always had positive feedback from players, coaches and club administrators alike, I would not hesitate to recommend Kappa to another Federation or professional or Community Football clubs."

**CEO, Football NSW, John Tsatsimas**

"Kappa has been an invaluable partner to Football Queensland over the past seven years, providing on-and-off field apparel for our state teams, both outdoor and futsal, regional FQ Academy teams and our staff.

Throughout our partnership, Kappa has consistently demonstrated their commitment to precision and attention to detail. Our orders have always been fulfilled with the utmost accuracy, ensuring that our teams receive the apparel they require without delays or errors. This level of reliability has been instrumental in streamlining our operations.

Working with state teams demands strict adherence to tight deadlines for orders to be processed, manufactured and delivered, which Kappa consistently meets.

Kappa's customer service is second-to-none and I regularly hear positive feedback from our staff, players and coaches on the quality of their apparel. I would not hesitate to recommend Kappa to other Member Federations and clubs."

**CEO, Football Queensland, Robert Cavallucci**

"Kappa has been the official apparel supplier for Football Tasmania for the last 18 months. In that time, they have been a pleasure to deal with.

Through the partnership, Kappa provides support to many areas of the game, in particular our player development programs including state teams and Talent Support Programs across the state.

One of the major bonuses for our Federation staff has been the support of Kappa staff in both ordering as well as the associated delivery time. Their approach and commitment have taken huge pressure off Football Tasmania staff.

Football Tasmania have utilised Kappa's custom design process, plus available stock items for State and representative team clothing, together with staff requirements.

We have had positive feedback from players, coaches, and parents alike. I would not hesitate to recommend Kappa to another Federation or Football clubs."

**CEO, Football Tasmania, Matt Bulkeley**

# CLUB TESTIMONIALS

"The Kappa range of stock products ha sbeen a huge positive for our club over the last two seasons. With a recent urgent request for additional training kits, polos and bags the team at Kappa were able to quickly and efficiently deliver with our orders in full.

From MiniRoos through to our senior NPL teams the FC Bulleen Lions players have had nothing but positive feedback on the quality, style and durability of the Kappa stock range."

**David Del Monaco, General Manager, FC Bulleen Lions**

"We have been very happy with Kappa, their products and services over the last four years. They have been the perfect partner who always deliver what we need and supports our club over and above our partnership agreement.

Their apparel is consistently of a high quality and lasts well beyond our expectations. Our relationship manager Jake is always available to assist us with any enquiry and provides great customer service. "

**Nigel Hemer, Holland Park Hawks**

"We have been working with Kappa since 2019 when we first purchased club apparel. Our jerseys proved to be well made, good value for money and durable, giving us three full seasons of wear. Liaising over designs, logos and modifications were prompt and without hassle. Kappa replenished our entire club jerseys this year with positive feedback from our players, committee and supporters."

**Jessy Mulla, Leichhardt FC**

"Lions FC switched to Kappa on short notice due to a failure from another company and it has been the best decision we have made as a club. From the owner down to the local contacts they have been nothing but professional, accommodating and service driven. In the apparel industry it is known for empty promises but the team at Kappa always seem to deliver.

The biggest asset has been the design team that has help reinvigorate our brand with our gear looking first class on and off the pitch.

The design team has put forward many ideas to help us stand out from the crowd, and the quality of workmanship of the garments makes the product look the part. The players love the training gear through to the playing gear and off-field apparel.

We have been so happy with the relationship that after six years we have decided to extend our relationship for a further 4 years.

I would highly recommend Kappa to any club looking for a quality product with a quality service to back it up.."

**Rob Scanlon, General Manager, Lions FC**

"Frenchville Sports Club is a large community multi-sport club in Rockhampton with over 100 teams and nearly 2000 sporting participants across junior, and senior participants.

The team at Kappa have helped us strengthen our brand by working with us to produce apparel in our unique colour scheme for consistency across our sports. Kappa have delivered every time with clear artwork proofs and order detail confirmations, consistent high-quality fabrics and colours and realistic time frames for deliveries.

The Kappa team were fantastic with their support in helping the club refine the designs of our new playing kits to a product that our teams are proud to wear. Our senior football men and women strongly prefer the Kappa playing kit from head to toe.

Would we recommend Kappa to others? Most certainly! "

**Sue, Frenchville Sports Club**

LEAGUES
ALL★STARS

# A-LEAGUES ALL STARS

"Kappa Australia delivered an outstanding level of service, delivering high quality products in a tight timeframe.

Our All Stars players and squad were very satisfied with the kit and apparel and looked great in game and at camp.

We very much hope to build on this partnership with future opportunities between A-Leagues and Kappa Australia."

# ANTI-MICROBIAL FABRIC

## CLEANCOOL
## ANTI-MICROBIAL FABRIC

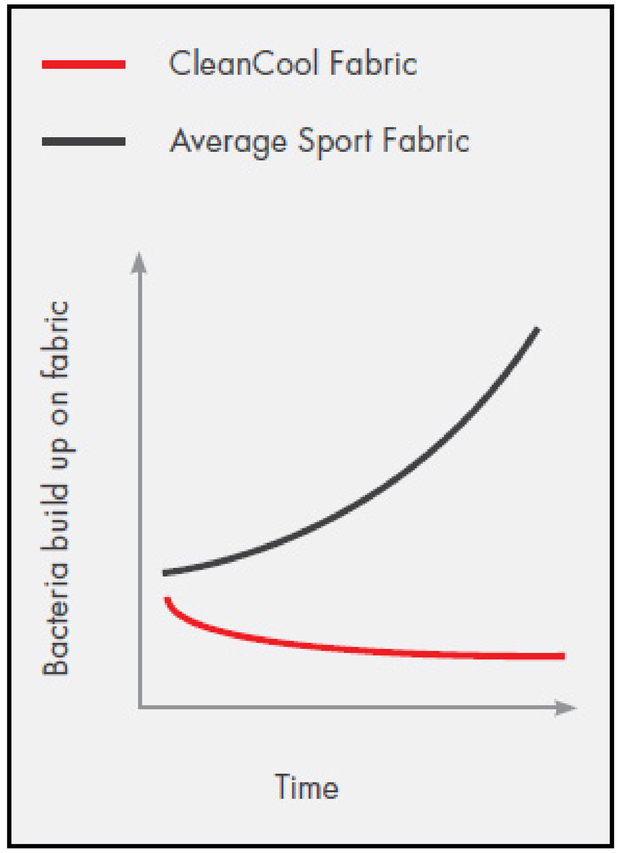

With [Ag+] contained in the fibre, CleanCool Anti-Microbial fabric eliminates highly tolerant MRSA as well as Staphyococcus and Pheumococcus in a short time which maintains freshness in garments by eliminating bacteria the causes odour.

**Realising its safety on the human body, technicians have developed a new fabric containing Silver fibres making the fabric different to any other chemical finish.**

The anti-bacterial effect from this fabric is extremely durable.

Our anti-microbial fabric items can be purchased through custom orders only.

# ANTI-MICROBIAL FABRIC

A critical compartment for any clothing system is the next-to-skin layer, which must provide the basis of a sweat management system. Our CleanCool fabric does that, and more. CleanCool combines the softness of cotton and the cool, easy care properties of polyester to keep you fresh and cool at all times. With its anti-microbial effect, CleanCool also protects the human body from harmful germs.

The secret of CleanCool is in its multichannel cross section, special textile design and unique finishing. It applies to the capillarity theory of textile development, moving moisture away fromthe outer layer of the fabric. It then dries that moisture faster than any other fabric and thermo-regulates the body.

Despite its relatively hydrophobic basis, the integral surface channels and the resulting greater surface area of CleanCool, provide a greater ability to transport moisture along the surface of the fibre.

The irregular network of fibres create numerous contact points, giving rise to capillarity action, which is important for the transport of liquid moisture. These multi-fibre contact points do not occur with traditional round fibres because of their geometry. These characteristics of CleanCool ensure that perspiration does not accumulate and quickly reaches the surface, where it is released to the surrounding air helping the skin to stay drier, for longer. Although CleanCool fabrics move moisture quickly, individual fibres do not absorb moisture readily. In fact about 1% by weight compared with over 10% focotton fibres. This helps CleanCool fabricsto dry quickly and reduce the potential for odour, bateriological or mildew attack. Additionally, with its anti-microbial component, [Ag+] contained in the fibre CleanCool eliminates various harmfuland odour causing germs.
